

# VUSAL ALAKBAROV

---

Baku, Azerbaijan | [iamvusalalakbarov@gmail.com](mailto:iamvusalalakbarov@gmail.com) | +994 99 365 19 51 | [linkedin.com/in/iamvusalalakbarov](https://linkedin.com/in/iamvusalalakbarov) | [github.com/iamvusalalakbarov](https://github.com/iamvusalalakbarov) | [iamvusalalakbarov.vercel.app](https://iamvusalalakbarov.vercel.app)

## PROFILE

**Front-end Developer** with 1+ year of experience in building pixel-perfect, responsive web applications following clean code principles. Specialized in **JavaScript, TypeScript, React.js, Next.js, and Tailwind CSS**. Brings strong problem-solving skills and algorithmic thinking, with a focus on writing maintainable, scalable code.

## WORK EXPERIENCE

### Front-end Developer

March 2025 - Present

Vira, Baku, Azerbaijan (*Remote*)

- Develop and maintain responsive, user-centric web applications using React.js, Next.js, Tailwind CSS, and Shadcn/ui.
- Implement full-stack capabilities of Next.js, handling server-side logic and utilizing features such as server actions, route handlers, and built-in middleware.
- Build and optimize UIs by creating reusable components and leveraging Tailwind-friendly Shadcn/ui components, ensuring seamless user experiences.
- Integrate APIs and manage asynchronous data flow to enhance performance and interactivity.
- Contribute to projects on an hourly basis, focusing on clean code and efficient task delivery.

**Tech Stack:** JavaScript, TypeScript, React.js, Next.js, Tailwind CSS, Shadcn/ui

### Junior Front-end Developer

April 2024 - April 2025

Nukhali MMC, Baku, Azerbaijan (*On-site*)

- Developed and maintained responsive, cross-browser web applications using TypeScript, React.js, Next.js, and modern CSS frameworks.
- Translated Figma designs into pixel-perfect UI components, ensuring accessibility and clean structure.
- Integrated REST APIs and handled asynchronous data with tools like Axios.
- Collaborated with back-end developers and designers to deliver seamless, component-driven user experiences.
- Used modular coding practices and clean architecture principles for scalable, maintainable front-end systems.
- Worked with GitLab for version control, managing repositories, tracking issues, and collaborating in a team-oriented environment.
- Built key features such as authentication flows, admin dashboards, CMS-driven pages with dynamic blocks, interactive data tables, and form-heavy interfaces.
- Worked across multiple domains including government, banking, and insurance projects.
- Took full ownership of several projects as the sole front-end developer, managing all aspects of the front-end development cycle, which accelerated my growth to a mid-level position.

**Tech Stack:** JavaScript, TypeScript, React.js, Next.js, Tailwind CSS, SASS, Mantine UI, Material UI

## Intern Web Developer

June 2022 - September 2022

Digitello Agency, Baku, Azerbaijan (*Hybrid*)

- Built pixel-perfect, responsive, and adaptive user interfaces from Figma designs by using HTML, CSS and styling frameworks such as SASS, Tailwind CSS.
- Integrated front-end components into PHP projects following the MVC pattern.
- Gained hands-on experience with React.js by observing and applying best practices in real-world codebases.
- Adapted to a hybrid working environment, learning to collaborate effectively both remotely and on-site.

**Tech Stack:** HTML, CSS, JavaScript, PHP, React.js, SASS, Tailwind CSS

## EDUCATION

### BSc in Computer Science

September 2018 - January 2024

Akdeniz University, Antalya, Türkiye

Took related courses such as Web Programming, Principles of UI Design, Database Management, Software Engineering, Data Structures, Algorithms, and Design Patterns.

## SKILLS

- Core technologies: HTML, CSS, JavaScript, TypeScript, React.js, Next.js, SASS, Tailwind CSS
- State management: Context API, Redux Toolkit
- Design libraries: Material UI, Mantine UI, Shadcn/ui
- Version control: Git, GitHub, GitLab
- Development principles: SOLID, DRY, KISS

## LANGUAGES

Azerbaijani (native), English (upper-intermediate), Turkish (native)
